

PRODUCT SHEET

Ferti Seed Enhancer

GENERAL INFORMATION

Ferti Seed Enhancer is an organic based, water soluble seed enhancer that ensures optimum seed germination. Nutritionally superior seed is important to ensuring a good germination and root development in the early crop establishment. By applying Ferti Seed Enhancer to the seed, rapid absorption of important trace elements amino acids and root growth regulators is achieved. The amino acids and growth regulators are also a food source for the biology of the soil around the root zone.

IMPORTANCE

Importance of Ferti Seed Enhancer is:

- Improved root surface area has better ability to extract nutrients from the soil
- Reduced danger of seedling loss by water, wind erosion and drought
- Improved stress resistance
- Countering the pruning effect on the roots by herbicides, which inhibit the uptake of the trace elements
- Improvement of root: shoot ratio, with an increase in soil organic matter, resulting from root activity
- Potential for reduction in fertilizer cost
- Amino acids provided are a food source for the microbes

TYPICAL ANALYSIS

Elemental Analysis

	G/L	% W/V		G/L	% W/V
Nitrogen (N)	6.13	0.613			
Phosphorous (P)	114	11.4	Manganese (Mn)	37	3.7
Potassium (K)	24	2.4	Iron (Fe)	3.3	0.33
Sulphur (S)	40	4.0	Boron (B)	0.5	0.05
Magnesium (Mg)	7.7	0.77	Molybdenum (Mo)	0.79	0.079
Zinc (Zn)	29	2.9	Cobalt (Co)	0.14	0.014

Plus - Growth regulators, Uptake enhancers, Natural Auxins

APPLICATION

- * Wheat, barley, oats 5LT product + 3LT to 5LT water/pickle per ton of seed
- * Sorghum 3LT product + 2LT to 4LT water/pickle per ton of seed
- * Maze, Sweet Corn 2LT product + 2LT water/pickle per ton of seed
- * Pasture seed 10LT product + 1LT - 2LT Water/pickle per ton of seed
- * Canola 10LT product + 2LT - 3LT Water
- * Lupin, Lentil, Mung, Azuki, Faba & Black Eyed Peas, field Peas
5LT product + 3-5LT water per ton of seed

AVAILABILITY

Ferti Seed Enhancer is available in 20 litre, 200 litre and 1000 litre drums
